ASSIGNMENT 2

Problem Statement: Write a menu driven program in C to implement the basic arithmetic operations such as Addition, Subtraction, Multiplication & Division.

Objectives:

- To understand the concept of menu driven programming in C.
- To apply conditional statements & switch-case control structures.
- To perform basic arithmetic operations using user-defined input
- To enhance logical thinking & problem-solving skills.

Theory:

if-else ladder statements syntax & sample program. switch-case or if-else ladder statement syntax and sample program Basic arithmetic operations include Addition, Subtraction, Multiplication, and Division. Division by zero should be avoided.

Algorithm:

Step1: START
Step2: Declare variables like int choice, float num1, num2, result.
Step3: Display the menu.
1) Add 2) Sub 3) Multi 4) Division.
